# What Is The Objective Of Club Event Management App?

- Create a user-friendly mobile application for efficiently managing events within university clubs.
- Simplify complexities in organizing diverse club activities.
- Centralized platform for scheduling, organizing, and managing events

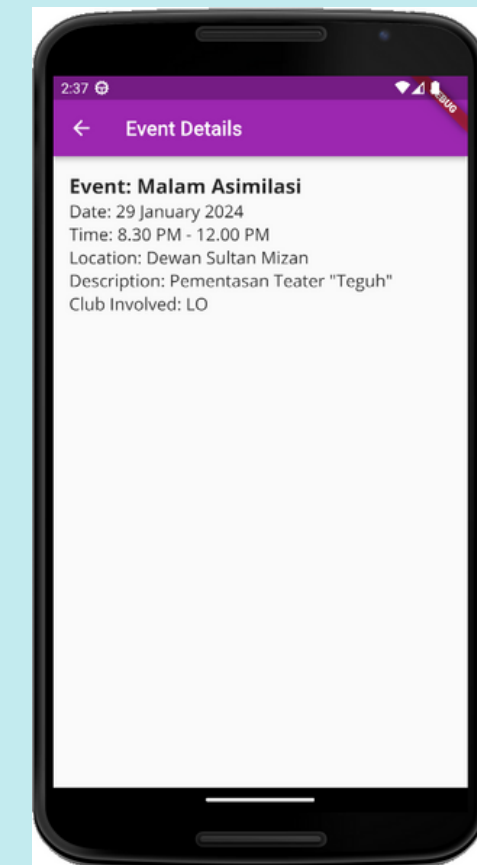

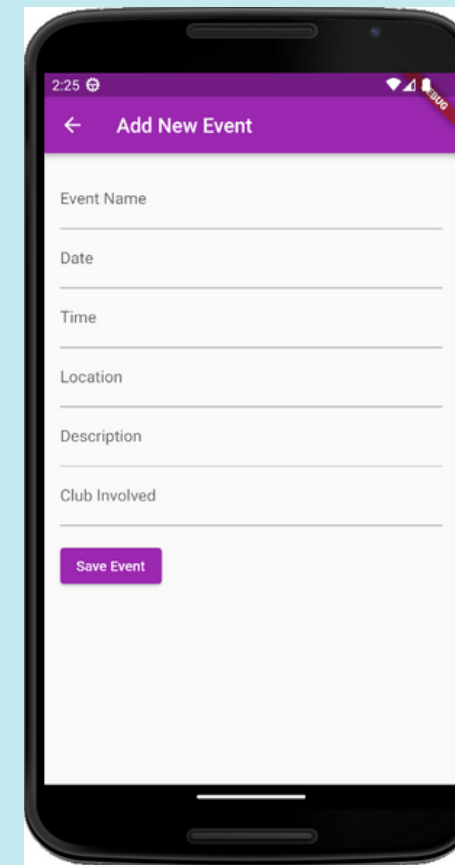

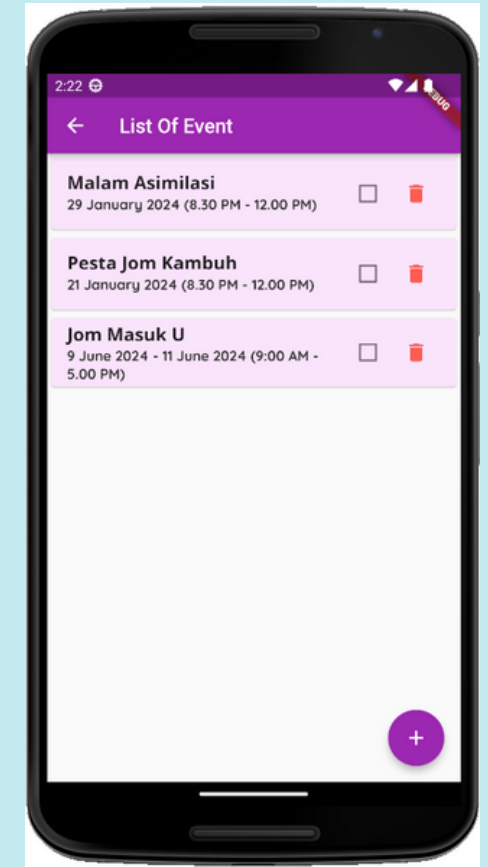

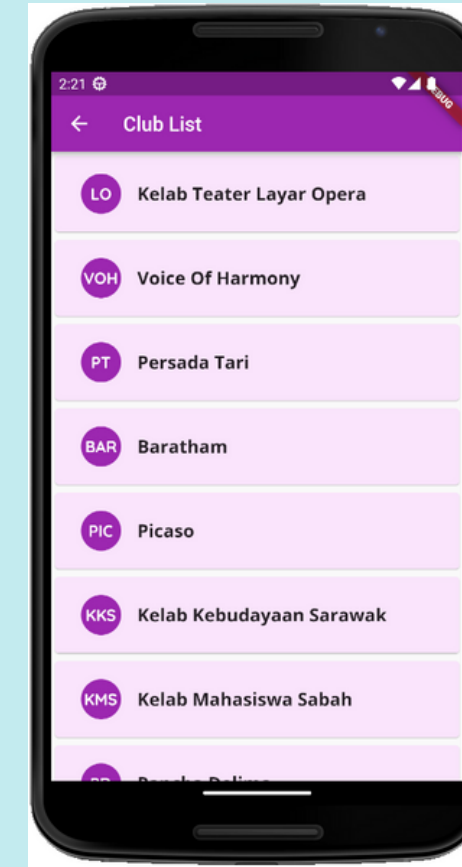

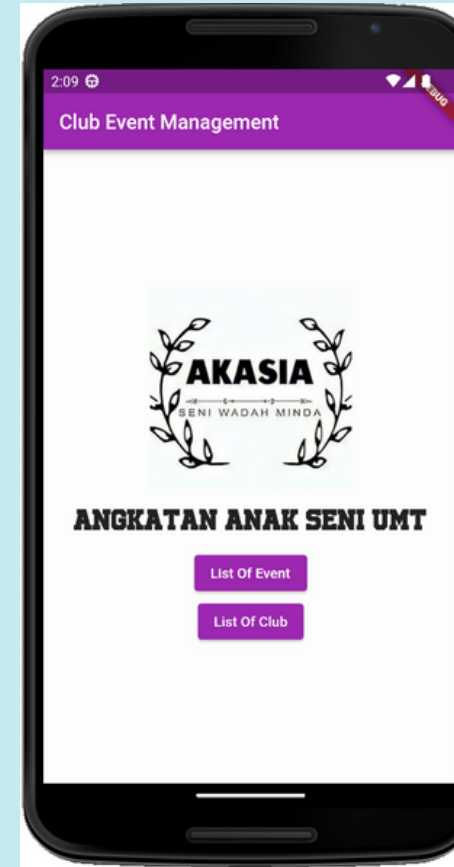

# Prototype Design

- Home Screen
- Club List Screen
- Event List Screen
- Add New Event Screen
- Event Details Screen

# UI Application

- Home Screen
- Club List Screen
- Event List Screen
- Add New Event Screen
- Event Details Screen

**In summary, the Club Event Management App brings efficiency to university club activities. With its user-friendly design and implementation using Flutter, the app simplifies event planning for clubs. This project reflects our commitment to innovative solutions, and the app has the potential to enhance campus community engagement.**
